PROPOSED: Running track and outdoor gym

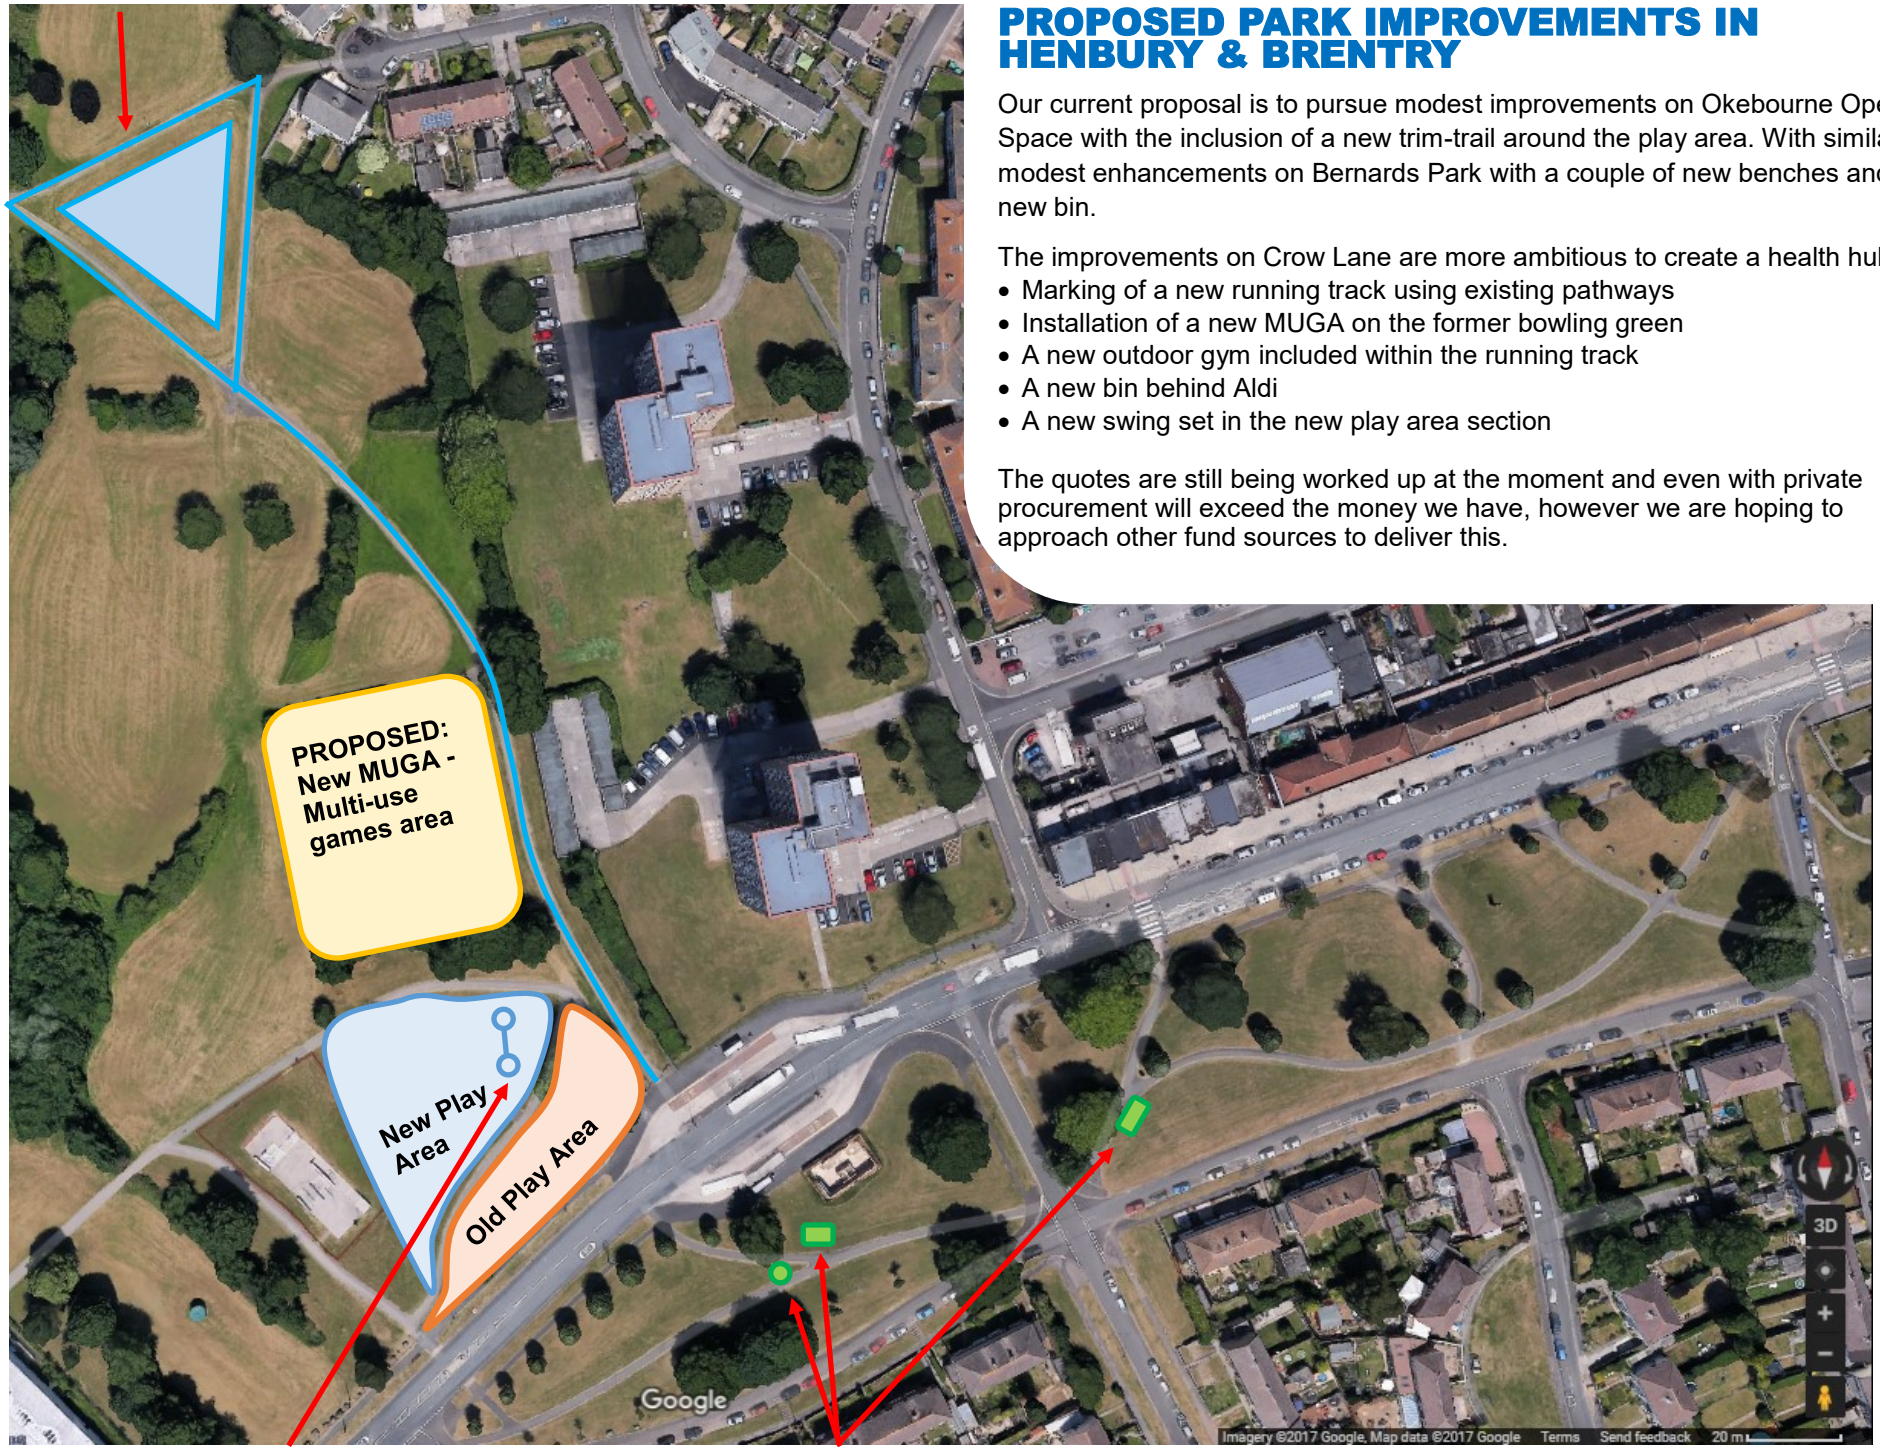
PROPOSED PARK IMPROVEMENTS IN HENBURY & BRENTRY

Our current proposal is to pursue modest improvements on Okebourne Open Space with the inclusion of a new trim-trail around the play area. With similarly modest enhancements on Bernards Park with a couple of new benches and a new bin.

The improvements on Crow Lane are more ambitious to create a health hub:

- Marking of a new running track using existing pathways
- Installation of a new MUGA on the former bowling green
- A new outdoor gym included within the running track
- A new bin behind Aldi
- A new swing set in the new play area section

The quotes are still being worked up at the moment and even with private procurement will exceed the money we have, however we are hoping to approach other fund sources to deliver this.



PROPOSED: New swing set

PROPOSED: Two new benches (carved) and two new bins, one behind Aldi
